JUST A LITTLE MORE ABOUT US...ON PHOTO

THE CITY OF OSIJEK

Osijek is the largest city in the east of Croatia and is economic and cultural centre of Slavonia ; a region of Eastern Croatia.

Our "City on the Drava River" was named after the word "oseka" which means „low tide“ (a place near the river suited for inhabitants). It's the fourth biggest city in Croatia with a population of about 100,000 and the cultural, economic and scientific centre of Slavonia and Baranja region.

Osijek is located at only 20 km from the confluence of the Drava and the Danube, in the middle of its 2850 km long course from German Schwarzwald to the Black Sea. In this part of the European Podunavlje (Danube region) Croatian and old Austro-Hungarian heritage meet and you will first notice that in the architecture and rich traditions and gastronomy.

The name was given to the city due to its position on elevated ground, which prevented the city being flooded by the local swamp waters. Its name "Osijek" derives from the Croatian word oseka, which means "ebb tide".

For the first visit to Osijek, we recommend that you visit Tvrđa, a fortified part of the city from the 18th century where you will see some of the most valuable examples of Baroque architecture in Croatia.

Passing through the large parks and gardens (the city has 17 parks) you'll come to Secession district with monumental public and private buildings such as palaces, galleries, court and post office.
