ANDAGE

A.S.A.P. - 31.01.25

MARCHE-EN-FAMENNE, WALLONIA

! ONLY FOR EU MEMBERS !

The missions of the non-profit organization ANDAGE is to develop innovative projects and responses adapted to the needs of people with physical, mental or multiple disabilities, adults and children and their families.

In order to fulfill this mission, Andage has 5 services, each answering a different need: residential, daycare, accompagnement, supported houses and inclusion.

All year long, Andage proposes different activities, collective or not, within their services (workshops about carpentry, handcraft, gardening, music, sport) or outside (visits, excursions...) among which different residential trips are organised.

As a volunteer, you will join the team of Andage in Marche-en-Famenne, take part in the team meetings, take part in the meetings with the beneficiaries, implement new projects and join the different workshops and residential activities.
